

PRESS RELEASE FOR IMMEDIATE RELEASE

CMather.com purchases Bendigo Hosting and Domain Names R Us

Melbourne, Australia (PRWEB) July 17, 2007 -- Chris Mather - Group Operations Manager for Asia Pacific announced the rebuild and purchase of both companies was nearly complete. "I'm happy with the current progress and we should have all companies operating as one entity by the end of this month" said Chris Mather. Over one thousand hosting customers and four thousand Domain Names will now be run and operated by CMather.com.

Bendigo Hosting offers hosting solutions and e-commerce applications to the local community. CMather.com will now offer these services internationally, increasing the customer base by year 2008. "We offer wholesale pricing for our customers and our prices are firm all year round", said Mather.

Domain Names R Us offers all domain names, domain management, SSL certificates, internet lines and e-mail applications. CMather.com has integrated these services to all current hosting customers and reduced domain name management by over 40% within the last year. "This is a huge saving for our customers to obtain discounted renewals, reduce their domain name costs and receive the benefits of free URL and e-mail forwarding" said Mather.

By the end of July all services will be under the CMather.com corporate name. A new web design is currently being prepared to integrate all three services into one simple package for the customer. A new customer support team, including phone and online chat support, has already rolled into production to handle the increase in customers. Support offices in the UK and Asia will be effective by the end of July to handle queries from specific countries.

"The expansion has run smoothly, and I'm excited with the new developments we currently have in plan. I look forward to meeting our new customers and welcoming them to CMather.com", said Mather. The CMather.com final portal goes online at the end of July joining all three sites into one, offering web hosting, design and domain name management.
